

# e-duo

## The perfect combination

Control - with a cell phone - of the PACKAGES e-GPS and one of the two alternative PACKAGES: e-report or e-venta.

Las funcionalidades son las mismas que se han descrito en los apartados correspondientes.

### Advantages

with the same cell phone, two applications function simultaneously. They offer, in combination, the control of the mobility activities and remote management to companies. With the same briefings, reports, and information that are generated at the EMOVILIA website.

### Examples with e-duo

Localization and reporting of deliveries and pick-ups. Localization and communication of packaging services. Localization and management of orders or delivery notes.

### Client companies

fleets of special transport vehicles that belong to manufacturers, fleets of assistance vehicles that communicate the state of the pick-up.

	users	price
Standard	up to 5	everyone for 150€ per month
Premium	up to 15 additional	27€ per month x user
Maxi	from 20	enquire
Registration per client		150€
